DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, 5, 7, 8, 10, 12, 13, 15, 16, 18, 20-24, 26, 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Sievenpiper et al (US 2003/0010529).

Sievenpiper et al disclose having multi-edge ground cells(10) periodically, compactly and complementarily distributed on a ground surface (22), wherein at least one slot exists between the two adjacent ground cells (Fig. 1) and capable of functioning as claimed (re claims 1, 7, 15, 23),

Re claims 2, 12, an interconnection (13) between the ground cells (Fig 1).

Re claims 3, 8, 16, 24, the ground cells have an identical cross sectional profile (Fig 1).

Re claims 5, 10, 18, 26, the ground surface include a planar surface (Fig 1)

Re claim 13, the multi edge ground cells are portion of the ground surface (see Fig 1).

Re claims 20-22, 28, a beehive shape (Fig 1)

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 6, 9, 11, 17, 19, 25, 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sievenpiper et al.

The teaching of Sievenpiper et al as discussed above does not disclose wherein the ground cells have different shapes or profiles (re claims 4, 9, 17, 25), the ground surface includes a curved surface (re claims 6, 11, 19, 27). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the shapes, profiles, surfaces of Sievenpiper et al, since more than a mere change of form is necessary for patentability. In re Span-Deck Inc. v. Fab-Con, Inc. (CA 8, 1982) 215 USPQ 835.

Response to Arguments

Applicant's arguments filed 06-20-05 have been fully considered but they are not persuasive.

Applicant argues (1) that the ground shield structure reduces an eddy current inducted by the electronic circuit structure, (2) that the metal plates are not distributed on the same ground surface. With respect to (1), Sievenpiper et al disclose the structure as claimed, therefore the functional limitation "reducing an eddy current inducted by the electronic circuit structure" is inherent. With respect to (2), the multi ground cells (top metal plate 10) are distributed on the same ground surface (Fig 1 and Fig 2F).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
